Profile

Software Developer with expertise in front-end and back-end technologies. Skilled in building user-friendly interfaces and scalable systems. Proven ability to optimize web applications and streamline development processes. Strong problem-solving skills with a focus on efficient, maintainable code and effective collaboration. Passionate about learning new technologies and continuously improving performance.

Work Experience

Overhaul Solutions Pvt. Ltd. (ParcelPicks)

June 2025 – Present

Full Stack Developer

Mumbai, India

- Designed and developed **15+ scalable RESTful APIs** using Java, Spring Boot, Spring Data JPA, and Hibernate for ParcelPicks, a SaaS-based logistics platform, collaborating with a cross-functional engineering team of 10+.
- Implemented core business logic and Spring Security/JWT-based authentication across **3 key modules** – courier distribution, authentication, and analytics – ensuring reliable end-to-end request handling.
- Managed and optimized MySQL databases using complex joins, indexing strategies, and stored procedures, **improving query performance by 10-25%**.
- Deployed and maintained applications on **AWS EC2** (Ubuntu Linux) using Maven builds and Git-based release management.
- Performed API testing and debugging using Postman and cURL, **resolving 50+ production-level issues** quickly.
- Built and enhanced **5-10 frontend screens** using ReactJS, HTML, CSS, and JavaScript based on client requirements.

Syscon Infotech Pvt. Ltd.

September 2022 – May 2023

Programmer

India

- Developed features as part of a **10+ person** engineering team for a web-based Logistics Software Solution (LSS) covering shipping, transportation, warehousing, and logistics modules.
- Applied **40+ database changes** in SQL, including creating and modifying tables, stored procedures, triggers, and views based on client requirements.
- Debugged backend systems and optimized SQL queries, **improving application performance by over 50%**.
- Designed and refined **3 core areas** – invoice structure, billing logic, and UI components (HTML/CSS) – through iterative client feedback.

Technical Skills

Languages: Java, C++, JavaScript, SQL

Frameworks & Technologies: Spring Boot, Spring Framework, Spring Data JPA, Hibernate, Spring Security, JWT Authentication, MVC Architecture, RESTful APIs, ReactJS, Angular, HTML5, CSS3, Bootstrap

Core Java: OOP Principles, Design Patterns, Collections Framework, Java 8 Streams, Lambda Expressions, Exception Handling

Databases: MySQL, MySQL Workbench, Stored Procedures, Triggers, Views, Query Optimization

Cloud, DevOps & Tools: AWS EC2, Ubuntu Linux, Git, GitHub, Maven, SSH (PuTTY), systemctl, Postman, cURL

IDEs: VS Code, Eclipse STS, XAMPP

AI Tools: Claude.ai, ChatGPT, GitHub Copilot, Gemini

Projects

Expense Tracker Application | Java, Spring Boot, MySQL, ReactJS

2024

- Built a full-stack expense tracker enabling users to register, log in, and manage personal expenses.
- Built complete add, update, delete, and view functionality for expense records with a ReactJS frontend and Spring Boot backend.
- Established user authentication and CRUD operations for expenses, and configured CORS for secure cross-origin access.

Education

Centre for Development of Advanced Computing (CDAC), India

2023 – 2024

Post-Graduate Diploma in Advanced Computing (PG-DAC)

Score: 63.38%

Shri Chhatrapati Shivajiraje College of Engineering, Pune

2020 – 2023

Bachelor of Engineering

CGPA: 7.5

Certifications

- Post-Graduate Diploma in Advanced Computing – Centre for Development of Advanced Computing (CDAC)
